Commissions and information:

Vince Pedavoli 0418 247 602
Tim Fawcett 0400 400 324

Young Wittenbuik BELG 96 3314599
Foundation Cock

Introduction

In a few short years the Pedavoli Bros Lofts have acquired the World's best bloodlines. Not many lofts around the world can boast direct children of Gaby Vandenabeele's Wittenbuik, Herbots Bros Nationaal 1 and Eijerkamp's Mr Bond, La Prima Vera and the Van Loon breeding machine, Chicago. Local legends such as Tom Will's Octagonal, Fred diMella's Famous Box 28 de Weerdts and Denis Shaw's Bird of the Year SAHPA 2009 have also been acquired.

We are novices at this great sport, but we have spared no expense in obtaining the best performed pigeons of famous bloodlines both locally and overseas.

We bought Graham Duggan's shipment of Wouters Janssens from Germany, Devriendts from Oak Haven Farm, US and Houbens from Jackson Lofts, US.

Many flyers across Australia have gained immediate success with pigeons sold, but generally either gifted or loaned by us.

This relentless pursuit of excellent bloodlines and performance is the reason why this sale needs to take place. We have too many and cannot use the all the stock we have.

The sale represents an opportunity to purchase excellent pigeons to improve your bloodlines or try something different.

The Sale will include:

- Imports brought in directly by us from Eijerkamp, Holland and Honeysuckle Lofts, UK.
- Imports and performed pigeons purchased at the Lu Bros Sale.
- Performed pigeons that have been out on loan and returned for this Sale.
- Producers of Federation winners.
- A full brother to Grenville Evan's Braveheart and other Honeysuckle Janssens.
- A number of direct children of Young Wittenbuik, Lot 132 Lu Bros Sale. The best Vandenabeele in Australia.
- A small group of 2009 latebreds that represent the pigeons that are racing at the top of the CCF in Sydney now.

There will be a reserve on a small number of pigeons in the Sale. All others will be sold on the night.

Testimonial

Any of you that know Vince Pedavoli will be aware that he has spared no expense in obtaining the best stock available from here in Australia and overseas. In fact he has obtained key lots from the top disposal sales, examples being Grenville Evans, George Vella, Lu Ping, John Wetering, etc. He has also obtained birds from the top overseas studs; Eijerkamp (Ponderosa, Holland), Honeysuckle Lofts, UK, Willy Van Beers, etc, from Germany purchasing birds not just from their normal stock pairs, but birds direct from their champions.

Through my friendship with him I have been given and had on loan many birds and with the help of these birds I have been fortunate enough to win many federation races and aggregates including the old bird aggregate in my federation for the last two years, on one of these occasions breaking the previous record by over 60 points. Many top federation positions have been won from 60 miles to 600 miles with these birds and with them crossed into my own. Some of the birds I have had on loan are in fact in this sale including two that have bred me Federation winners. To give you an idea of the quality of the stock, all the birds offered at this sale that have been on loan to me have bred birds to win positions in the top 5 of the Federation. I have retained sons and daughters of all these birds for my stock loft, and many of these have also bred top federation birds.

I have often stated that after Vince has paired up his birds such is the quality of the birds he possesses that the birds left over in his holding pens are good enough to grace any stock loft in Australia. Vince has decided to offer these surplus birds for sale, therefore offering the fancy a unique opportunity to obtain some top stock birds. So if you are looking for a bird to cross into your own family, a bird of a certain breed to add to your own line, or just some top quality birds I recommend you take advantage of this wonderful opportunity offered here at this sale.

John Dismore, Melbourne
