SALE
Commencing 11.00 am

1990 SAHPA Bird of the Year

Inspection of Birds from 9.30 am on the Day of Sale only

This family of birds has been established over a long period of time and have been among the top performing lofts within South Australia. Introductions of performed strains has ensured the continued success over recent times and birds from this loft have performed well for other flyers in both country and interstate.

This will be an excellent opportunity to purchase proven performed birds

Commissions available:

Mr Alan Thede
AUCTIONEER

3860798

I am proud to offer my complete loft of birds after sixty-six years in the sport. Due to my increasing physical disability, the decision to dispose of the birds was made with much regret after a lifetime of competitive involvement in pigeon racing.

The performance of the birds and the results enjoyed over the past decade is evidence of the quality of this family of birds.

Major positions attained in recent years
in the Association Points

1978	12th	72 points
1980	2nd	120 points
1990	1st	169 points
1991	5th	93 points
1992	2nd	139 points

The highlight of 1990 was the performance of the Grizzle Hen SA.88 21958 which was Bird of the Year, performing in three races to gain 81 points.

5th Little Topar.- 6624 birds, 3rd Wilcannia - 5467 birds
4th Gilgandra - 1644 birds.

During 1992 the loft won ten races in the Hampstead Club, the Mt Willoughby Hen who is a prolific producer was responsible for every Association placing this year. A Blue Chequer Hen SA85 41097 2nd Association Mt Willoughby 876kms has passed on her winning genes down through the generations both in breeding as well as racing. Clear evidence of this can be seen in the performance of Blue Chequer Hen SA90 22552 winner of the Association from Booroorban 5 Bird Special. Since that result she has obtained not one but two other Association placings. Her sire is BCC SA88 21915 a son of the Black Splash Cock SA76 10677 sire of 1st Nundroo and many other association placings and well performed birds over time.

Blue Chequer Cock SA87 18639, the sire of 5 Association placings in one year including the Grizzle Hen, Bird of the Year 1990, when linked with the Grizzle family established in 1939 is a good producer. A direct son of 18639 a Black Chequer Cock SA89 16903 is also breeding association and club winners when mated with the Mt Willoughby bloodlines. When mated to a hen bred by late brother Geoff which was Goodger and Chown, he produced BCH SA90 22517 who captured three association places namely 2nd Booroorban, 2nd Temora, 3rd Inglewood in the association as well as 1st club Hattah. A hen with enormous potential.

I wish everyone success who purchases these birds, may they bring to each of you the results that I have enjoyed.
