

RACING PIGEON AUCTION ***** GRANT PATERSON ***** 28th AUGUST 1983

The auction of my entire stock of racing pigeons is to take place at Baulderstone Road, Gepps Cross S.A. on Sunday 28th August commencing at 10 am. The auctioneer will be Bill Walford.

It was my intention to continue racing pigeons in the 1983 season, however, due to several factors emerging since the end of last season, I have decided to dispose of my entire stock and a number of accessories. This decision has only recently been made and this is evidenced by the fact that the birds have had about twenty preparatory tosses to date (June 27th).

During recent seasons I have enjoyed considerable success at Association level and I make no secret of the fact that this has been almost solely due to the dominance, in my loft, of pigeons kindly given or loaned to me by my cousin, Allen Goodger. The outstanding performance of the Goodger loft (8 SAHPA wins and 11 times in the top twenty aggregate points in fifteen years) is testimony to the quality of the Goodger bloodlines.

I have never kept a large number of pigeons, preferring to retain about 25 flying pigeons at the end of each season. As a result my flock is culled quite heavily.

My pigeons' better performances have generally been achieved in slower velocity middle distance races and in races up to approximately 850 km where the leaders have just made home on the day of release. I consider this quality to be invaluable as the vast majority of races are now decided on the day of release. I believe them to be consistent and strong in constitution, being able to thrive on a lot of work.

During the past few seasons I have achieved the following high SAHPA placings generally competing against about 300 members.

2nd	S.A.H.P.A.	Cobar	770 km	3668 birds
2nd	"	Penong 3-bird	615 "	514 "

SAHPA Aggregate Points

1979	9th	440 members.
1980	10th	381 members.
1982	7th	365 members.

In 1981 I competed in only 3 SAHPA races winning pools in the hard Booroorban SAD and gaining 5th SAHPA Booroorban Open.

The following three pigeons have made the biggest impact on my loft:-

REF.A. BBC SA 74 50730 (LOT 72)

Placed 14th, SAHPA Morundah, 1st Pinnaroo.
Sire of 4th, SAHPA Mitiamo, 8th SAHPA Eucla, 32nd SAHPA Benalla.

Following purchase of this pigeon at the late Harold Webber's sale, I mated him with REF.B. and kept four squeakers which were all present at the end of the season. Among these birds were two cocks, LOT 49 which was placed 4th SAHPA Mitiamo and LOT 58 which was clocked twice. I have used these two relatively young cocks ever since and they have proven to be most consistent and reliable producers. Furthermore, LOT 8 a son of LOT 58, is the sire of 3rd SAHPA Temora. Another of REF.A. sons, when mated with LOT 29, bred 8th SAHPA Nyngan and 30th SAHPA Mitiamo. This cock was given to R.&G.Eitzen last year.

REF.B. BCPH SA 76 51397 (LOT 73)

Dam of 4th, 10th, 15th SAHPA Mitiamo, 14th SAHPA Ceduna, 2nd Mittyack.

REF.B. (Continued)

Her sire was Lot 21 in Allen Goodger's sale being a son of 2nd SAHPA Oodnadatta. The dam of REF.B. was placed 16th SAHPA Finke for me and was sired by a brother to Allen's 1st SAHPA Cook. REF.B. was clocked on three occasions being placed at club level. She is the dam of LOTS 49 and 58 together with LOT 36 which was 14th SAHPA Ceduna and is the sire of 4th SAHPA Little Topar, 29th SAHPA Nullarbor, 2nd Pinnaroo and 2nd Poochera.

I had not paired REF.A. and B. since 1978 and belatedly decided to do so this year in an endeavour to breed more pigeons of good stock potential. These pigeons are LOTS 74 to 80. Should the above two pigeons be kept as a pair they may present the opportunity for a fancier to breed pigeons which, to date, have shown themselves to be consistently good producers.

REF.C. BCH SA 76 9580 (LOT 91)

After flying Eucla for the third time this hen was given to me by Allen. She is a sister to LOT 51 in his sale. Lot 51 (purchased by Nisbet Bros.) has bred 4th SAHPA Eucla, 4th SAHPA Young and 9th SAHPA Nullarbor. She is also a sister to 9th SAHPA Finke which bred two placings in SAHPA first 10. This magnificent hen does not suffer in comparison as she has bred 3rd SAHPA Temora (LOT 12), 2nd SAHPA Cobar and 28th SAHPA Ballan (LOT 50). Before gaining these prizes these hens were consistently early. One pair was taken from Lot 12 at the end of the 1981 breeding season and this mating produced 2nd SAHPA Penong.

The pigeons will be on display at 8.30 on the morning of the sale.
