RACE CALCULATIONS and FLYING TIME DEFINITIONS

Release time - Release time is the time and date pigeons are released from the release point by the SAHPA convoyer.

Corrected clocking time - Corrected clocking time is:

- Stamped time of mechanical clocks adjusted for **fast** or **slow** variation.
- Printed time of EBSS clocks adjusted for clock **fast** or **slow** variation.

Hours of Darkness – ‘Hours of Darkness’ for each day shall be from one half hour **after** sunset to one half hour **before** sunrise as determined by the SAHPA COM and utilised in the SRRS to calculate race results – see RBL 18.6.

RBL 18.0 The winner of an SAHPA Race is the bird making the fastest calculated velocity for the event, except where Race By-Law 18 (4) applies. Where Race By-Law 18 (4) applies, the winner is the bird with the fastest velocity of those home on the day (as defined in Race By-Law 18) except where a bird on the second day would have flown a higher velocity with its flying time having been from release time until corrected clocking time (including hours of darkness) in which case that bird is the winner. The velocity flown by all birds shall be determined by dividing the corrected flying time into the distance from the race point to the particular loft and expressed in metres per minute to the third decimal point. Should two or more birds record an equal velocity to the third decimal they shall be declared joint winners. The Committee of Management may disqualify any bird making a velocity it rules to be impossible.

RBL 18.1. Flying time for birds clocked on the day (which includes between midnight and one half hour before sunrise second day) shall be from release time to the **corrected** clocking time.

RBL 18.2. Flying time for birds clocked **after** one half hour before sunrise second day up until one half hour before sunrise on subsequent days shall be from release time to the corrected clocking time **excluding hours of darkness**.

RBL 18.3. Flying time for birds clocked after one half hour before sunrise third day and subsequent days shall be from release time to the corrected clocking time excluding hours of darkness.

RBL 18.4. Birds homing on the day cannot be beaten by any bird or birds homing on any subsequent day unless sub-paragraph RBL 18.5. applies.

RBL 18.5. A bird homing on the second day beats a bird home on the day if it would have flown a higher velocity with its flying time having been from release time until corrected clocking time (including hours of darkness). This also applies to birds home on subsequent days until the closure of the race.

RBL 18.6. The City of Adelaide shall be used for Sunrise and Sunset calculations in the SRRS and the SAHPA COM shall determine the relevant agency which supplies these timings for races.

RBL 19. The time limit for races shall be –

- Three calendar days for all races up to 950km
- Five calendar days for races between 950km and 1360km

RBL 20. Vacant

RBL 21. There are no race qualifications for birds on any SAHPA races. For example, young birds are not required to have an SDC race before competing in an MDC or LDC race. Races conducted by other clubs (such as SA Long Distance Club) as part of the SAHPA greater programme may have specific restrictions or requirements for qualification.

CHECK VERIFICATION OF RACE BIRDS

RBL 22. Birds finishing first, second, third and fourth positions in all races on the official SAHPA program, must be tossed and verified within seven (7) days of homing by the chairperson or secretary of the owner's club or hampering centre. The onus is on the owner to arrange for his /her bird/birds to be tossed and verified. The committee of management reserves the right to verify any pigeon. The appropriate form duly filled in must be presented to the Association prior to prize money or points being allocated.

- The members must be registered as club members.

- When tallying up the number of members they cannot be of the same family living at the same address.
- If a club falls below four (4) members they must hamper with another club.
- Clubs which find it difficult to comply with the above may hamper at the SAHPA headquarters.
- On the night of hampering by 7.30pm, clubs are to notify the General Secretary of total bird numbers, member numbers and crate numbers.
- Club secretaries must (if fewer than four (4) competing members are present), advise the names of the noncompeting members overseeing the hampering.

RBL 27. Each hamper must be duly sealed following hampering then transferred to the SAHPA for transport loading. Each hamper must be clearly marked with the club's name and a number.

LINES OF FLIGHT

RBL 28. The line or lines of flight and the length of time to be flown shall be determined by members of the SAHPA at a Special General Meeting called for this purpose. The levy is the same as that charged for an SA ring. The ring secretary will issue a receipt showing the ring numbers on which the levy has been paid. Failure to pay the levy will cause the disqualification of the pigeon from any prize money and points earned in races under the heading SAHPA races on the official SAHPA Inc. yearly program.

RBL 31.3. BIRDS RUNG WITH INTERNATIONAL RINGS ARE BANNED FROM SAHPA RACES.

RBL 32.1 Before a pigeon rung with an SA prefixed ring (or foreign ring per RBL31) is raced by a person other than that to whom the ring was sold, the new owner must (except in the circumstances outlined in RBL 32.2) ensure the pigeon ring(s) are transferred to the new owner through the SAHPA Ring Secretary. Failure to transfer pigeons in the above manner will cause the disqualification of the pigeon from any awards earned in races on the official SAHPA COM program.

RBL 32.2. Pigeons rung with SA rings and purchased at squeaker sales (including Sires Produce sales) conducted by associated clubs, or the special races committee do not need to be transferred in this manner.
