

2011 Short Distance Championship Results

2011 saw a change in format for the SDC series of races and the results were very favourable with **more than half the SAHPA membership** competing for the first time. The change of format provided competition and recognition for flyers of all capability by splitting the SAHPA membership into groups according to capability and performance - that is - **peer to peer racing**.

As well as **Group** racing the Open Aggregate result was also provided and due recognition paid to the leading SDC flyers for 2011. The **leading flyers** in each group received performance certificates and these were presented to flyers at the SAHPA annual dinner. Individual race certificates were provided to group placings (1, 2, 3) during the race season.
